INITIAL		
On today's date at 5:10 AM, I was contacted by Trooper Tonya Calandra who advised that she had been notified by Lt. Ronald Hall, Midstate Correctional Facility, that an Inmate had hung himself in a bathroom in the 4B housing unit. She stated that the Inmate had been transported to St. Elizabeth's Hospital where he was pronounced deceased.		
I contacted Senior Investigator Mark Nell and advised him of this death investigation. He advised that he would respond to Midstate Correctional Facility to assist.

RESPONSE MIDSTATE CORRECTIONAL FACILITY		
I responded to Midstate Correctional Facility and was briefed by Trooper Calandra, Lt. Ronald Hall, and C.O. Adam Smaldon. I was advised that at approximately 2:50 AM, C.O. Smaldon heard a loud bang come from the bathroom area in building 4. C.O. Smaldon walked into the bathroom to find a towel over one of the bathroom stall doors. In the same stall, there were sneakers sitting in front of the toilet, making it appear as if someone was sitting on the toilet. C.O. Smaldon asked who was in the stall, but received no response. C.O. Smaldon opened the stall to find no one in the stall. He then noticed legs in the adjacent stall. C.O. Smaldon opened that stall door and found Inmate Joseph King, DIN 13A3662, sitting on the floor next to the toilet with a shoestring around his neck, unresponsive. The shoestring was tied to the electrical conduit on the ceiling. C.O. Smaldon broke the shoestring and laid Inmate King on the bathroom floor. C.O. Smaldon then removed the remaining string from Inmate King's neck. C.O. Smaldon then called for a medical response and initiated CPR. An AED was applied by NYSDOCCS staff, and no shock was advised. Amcare ambulance arrived at the facility at approximately 3:20 AM and transported Inmate King to St. Elizabeth's Hospital at approximately 3:40 AM. At 4:20 AM, Inmate King was pronounced deceased by Dr. Vanessa Brown. It should be noted that blizzard type weather conditions existed during the ambulance transfer to the hospital.		
I was advised that Inmate King had a history of suicide attempts and was labeled a "1S," which indicates mental illness.		
Trooper Calandra secured a Supporting Deposition from C.O. Smaldon, which is attached to this report as Enclosure #1. C.O. Smaldon also completed a NYSDOCCS Memorandum, detailing his recollection of events, which is attached as Enclosure #2.

RESPONSE TO THE SCENE		
I responded to the scene, which was the Inmate bathroom in the 4B housing unit. When one enters the bathroom in a northerly direction, one would enter the sink area. One could travel easterly to the shower area or remain in the sink area. If one continued walking northerly in the sink area, one would approach the bathroom stalls located on the west side of the room. There are six bathroom stalls. The first bathroom stall and the last bathroom stall are not in working order. Located in the fifth stall in front of the toilet was a pair of shoes, a Playboy magazine, a paper picture of a female with blonde hair, and a roll of toilet paper. Across from said bathroom stall on the floor was a tan colored towel. In the sixth (last) bathroom stall, a piece of plastic was over the toilet to deter anyone from using the inoperative toilet. In this last stall, a string was located tied to the electrical conduit located on the ceiling. The string was frayed where it appeared the string had been broken. An additional piece of tied shoestring was located on the floor in front of the bathroom stalls. That piece of string was also frayed.		
Photographs were secured from the scene by NYSDOCCS. A copy of said photos from NYSDOCCS will remain in the case		

folder.

At this time, Senior Investigator Mark Nell and NYSDOCCS OSI arrived on scene. I briefed Senior Investigator Mark Nell and OSI Investigator Mercedes Kitchen on the investigation thus far.

NYSDOCCS staff then located a letter in Inmate King's cube that Inmate King had written to his wife that he had requested to be mailed out. The letter was dated November 15, 2018 addressed to "Amy." In the letter, Inmate King at first stated that he prays that there is still hope for their relationship when he returns. He then stated, "I just got off the phone with you. And you get so aggravated with me. I really think you want to end our relationship. I don't want to hurt you or the kids, but I don't really think I'll make it through the night. I feel it's time [to] say goodbye. I hope your happy to do what you want now that I'm out of your life. Because I know you really don't want me anymore. And I can't live with myself." He then stated, "I am so sad, unhappy, and you are breaking my heart. I just can't do this anymore. I'm sorry. I love you! Love! Your husband Joe." At the end of the letter, he stated, "Good-bye my beautiful. I love you and I'm sorry. Tell Megan and Joseph I love them and I'm sorry. Please forgive me!" On the back side of the letter he wrote, "You have broken my heart and I need to kill this pain." NYSDOCCS provided a copy of this note, which is attached as Enclosure #3 of this investigative report. It should be noted that NYSDOCCS secured the original copy of this note as part of their evidence per NYSDOCCS Directive 4910A.

C.O. ADAM SMALDON

C.O. Smaldon responded to the scene, and we completed a walk through of the scene of what he had witnessed. He stated that at approximately 2:50 AM, he heard a loud bang come from the Inmate bathroom. He stated that he approached the bathroom and found the main bathroom door propped open. He stated that he entered the bathroom and saw shoes in front of the toilet in the next to last bathroom stall and a towel covered the stall door. He immediately thought that an Inmate was in that stall. He asked the Inmate what he was doing and received no response. He removed the towel and found no one in the bathroom stall. He then noticed legs coming into that stall from the very last stall. He immediately looked into the last stall and located Inmate King sitting on the floor with his legs underneath the toilet with a shoestring around his neck. The shoestring had been tied to the conduit in the ceiling. C.O. Smaldon immediately broke the string and assisted the Inmate to the floor. He removed the shoelace that was around the Inmate's neck and called for a medical response over the radio and began CPR. Medical personnel and NYSDOCCS personnel arrived and took over CPR. He stated that C.O. Pierson responded and placed the AED pads on the Inmate and began listening to the instructions from the AED. C.O. Smaldon left the area and made security rounds. He explained that Inmate King was not breathing and had no pulse when he located him.

It should be noted that C.O. Smaldon stated that he made security rounds are approximately 2:30 AM. At approximately 2:45 AM, he conducted the master count and all Inmates were accounted for.

RESPONSE TO ST. ELIZABETH'S HOSPITAL

Inv. Robert Piekiniak responded to St. Elizabeth's Hospital and found that Inmate King had already been moved to the morgue. Inv. Piekiniak responded to that location and found that the body had been tagged and placed in a white body bag. Upon opening the bag, he noted that due to the refrigeration of the body, it was cold to the touch. The decedent was wearing a neck collar, had an intubation tube coming out of his mouth, and was unclothed. A ligature mark was located around the neck of the deceased. His arms were crossed over the torso of his body and taped together. Redness as well as a red mark were located on his chest. A check of the body and extremities revealed no apparent fractures or wounds. Everything regarding the scene and the body appeared to be consistent with that of a suicide.

Inv. Piekiniak obtained photographs of the body. The photos were transferred to a CD and forwarded to SP Oneida FIU with a completed Gen'l 34D. A second copy of the photos will be kept in the SP Marcy BCI Case folder. The Gen'l 34D is carried as Enclosure #15 of this investigative report.

He stated that while speaking to Inmate King, nothing of concern came up during that initial interview. He stated that the next morning he asked Inmate King how his day was going. Inmate King told him that he was not feeling great over some personal issues. Inmate [REDACTED] advised that Inmate King did not go into any detail, and Inmate [REDACTED] advised that he gave Inmate King some encouraging words. Inmate [REDACTED] advised that it was either that night or the next day, he overheard some of Inmate King's phone conversations. At that time, he realized that Inmate King's marriage was suffering. Inmate King was upset as he was speaking on the phone. He recalled Inmate King saying, "Please don't leave me!" He also heard Inmate King tell the person that he couldn't do this without her. He stated that Inmate King told him that when he was in Franklin Correctional, he did six months in the ASAT program and completed the program. He told him he participated in another ASAT program after Franklin and was removed from the program due to a positive drug test. Inmate [REDACTED] advised that Inmate King told him that since he had a positive drug test, it was going to elongate his stay in the prison system and he wouldn't be paroled. Inmate [REDACTED] said that Inmate King's wife wasn't happy with that and, according to Inmate King, began having a relationship with someone else.

Inmate [REDACTED] stated after the conversation with Inmate King, he left his room and went to his room to sleep. When he awoke in the morning, he heard that Inmate King had attempted to commit suicide.

FURTHER INFORMATION

Midstate Correctional Facility and NYSDOCCS OSI provided the following information regarding Inmate King.

On May 10, 2018, Inmate King was issued a ticket through NYSDOCCS for drug use, which could have hindered his possibility of parole. It should be noted that Inmate King was to appear in front of the Parole Board in January of 2019. He was originally eligible for parole on May 22, 2016. He had a conditional release date of May 22, 2020 and maximum expiration date of May 22, 2024.

Also, Inmate King was noted as a "Level 1S," which meant that he suffers from mental illness. His NYSDOCCS medical records indicated that he has a history of depression and anxiety. On June 3, 2016, he attempted suicide by tying a shoestring around his neck and attached same to the stairwell. During this incident, the shoestring broke, and Inmate King fell, striking his face.
